All but One of the Wards Represented by Eleven Opponents of Hines Bill Submitting \$2,750,-000 Issue and One Man Who Is Noncommittal on It Gave Large Majority for the Funds in the Special Election of August, 1912.

## Bridge Question Which Should Be Submitted to the Voters

HE question is (1) shall the city build at a cost of \$2,750,000, the East Side (Reber) approach, already located or, (2) shall the city accept one of two propositions offered by the Alton & Mississippi promoters (A) lease and eventually buy the A. & M. approach at an approximate cost of \$7,000,000, or, (B) build now on the A. & M. plan at a cost of about \$4,000,000.

The way is open to leave the question to public decision through action by the House of Delegates which has only to pass the Hines bill proposing a \$2,750,000 bond issue, which was passed by the Council Nov. 21. The Post-Dispatch demands that the House of Delegates pass the Hines bill and let the public decide.

Eleven members of the House of Delegates expressed themselves, in interviews in the Post-Dispatch Monday, as being opposed to the Hines bill for the submission to the people of a his feet, and his right arm was wound \$2,750,000 free bridge bond issue proposal, the most promising means now open for the early resuming of construction, with a view to beginning work before the end of 1914. Salvadore Busso, 28 years old, an em ploye of the Continental Cement Co. at Continental, St. Louis County, six miles south of St. Louis, was whirled about swiftly revolving shaft in the mill Monday afternoon, and died at 11 p. m. in the Alexian Brothers' Hospital on South Broadway.

According to the account of the affair given by officials of the company to the St. Louis police, Busso was carrying a coil of rope through the shed where the achinery, used in crushing tons of rock daily, was in operation.

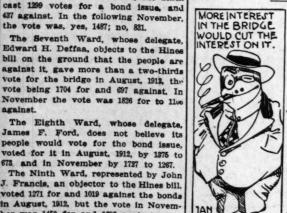

As he came near the shaft, which was everal feet above his head, the company fficials say he tossed the loose end of the coil of rope over the gleaming cylinder. It was making 60 revolutions

Two or three times, the employers say, the rope was brushed off the shaft. Then Busso made a stronger toss, and the rope colled twice about the shaft.

Instantly, it seemed to the witnesses of the accident, the whole coil was pulled after the rope and, and Busso, entangled in the rope, was jerked off about the shaft. His body was pulled into a narrow space between the shaft and the ceiling. The machinery, which not stop until the engineer, heeding the

Chairmen of Committees in Which Important Bridge Bills Are Slumbering

Council HE House of Delegates Railroad Committee has had in hand since Nov. 21 the Hines bill, already passed by the Council, which provides for submitting to the voters a proposal to raise \$2,750,000 by a bond issue, this sum to be used in completing the free bridge by building the

Reber approach. The Railroad Committee of the Council has had

since Oct. 17 the Hines bill reducing the life of the Southern Traction loop franchise from 50 to 25 years and giving the city authority to buy the loop after 10 years. The passage of this bill would remove the objectionable feature of the loop franchise, which aided in the defeat of proposed bond issues in previous elections.

President Reads Message to Congress, Asking That Articles of "The Peace That Is Honor and Freedom and Prosperity" Be Written Into Laws.

By Wire From the Washington Bureau of the Post-Dispatch. WASHINGTON, Jan. 20.-President Wilson read his message on trusts today to the members of both houses of Congress, gathered in the Hall of Representatives, and to a large crowd of persons from official, social and diplomatic walks or life that filled the galleries.

The scene was full of color and animation, and frequently the reader was interrupted by applause.

All on the floor and in the galleries rose when the President entered at 12:29 and gave him a hearty cheer. He commenced reading at 12:30. Halls and galleries of the capitol were thronged while President Wilson was reading, although those not in the House chamber had no chance of seeing the executive or hearing his words.

2-A law to confer upon the Interstate power to superintend and regulate the financial operations by which railroads are henceforth to be supplied with the money they need for their proper development and to improve transportation facilities. This is a reform the Post-Dispatch has vigorously advocated, using the Frisco scandal as an object lesson. The President made it clear that "the prosperity of the railroads and the prosperity of the country are inseparably connected," in this regard.

3-Definition of "the many hurtful restraints of trade," by explicit legislation supplementary to the Sherman law. 4-The creation of a commission to aid the courts and to act as a

They corresponded and when Col. Breen returned to Kansas City Oct. 6 he proposed to the 15-year-old girl, and, he says, obtained parental

consent to the marriage.

Breen came on to St. Louis to open headquarters. The Parkers came here Nov. 22 and two days later Breen and

the girl were married.

Breen told a reporter he told his young bride she need not soligit funds unless she wanted to. He also said he instructed her not to enter salcons to beg for money. Learning that she was dis-obeying this instruction, he said, he followed her one night and found her en-tering saloons on Market street. He scoided her for this, he said, and there was a quarrel, after which she went to her mother's home. She returned to him Christmas eve, but remained only two

days.

The girl bride told a reporter she was forced to solicit funds and to enter salioons.

Warrants to Be Based on Complaints of Patients Who Paid for Alleged Cures.

Dr. Horace G. Lloyd of 1214 Olive street and Dr. Ira Allison of the Holland Building were arrested by detecives Tuesday upon orders from Prosecuting Attorney Sidener, who stated he would issue warrants for them. Their arrest follows investigation made by reporters for an afternoon newspaper, who ast week caused the arrest of Dr. 'Allison, Dr. Lloyd's assistant, and two othor physicians.

Sidener said he would charge Dr.

Lloyd with obtaining money by false pretense. It was upon this charge that Dr. Allison was arrested last week. The complainant in the second case against Allison is Louis La Porte.

Sidener said the complainant against Dr. Lloyd was William Loser of 911 Car roll street. Loser told Sidener he had een Dr. Lloyd's patient since Jan. 19, 1913, and had paid \$63 to him, for which he claims Dr. Lloyd guaranteed to cure him of a certain ailment. Cornelius Walsh, a farmer at Barrett's tation, used his long-stemmed, silver ounted pipe to capture a prowler in his

hicken yard Monday night. Walsh was reading and smoking in his when he heard a noise in his hennery. With a lantern in one hand and his pipe in the other he went into and his pipe in the other he went into the yard. He found a man there. Holf-ling his pipe by the bowl, he leveled the stem at the intruder and commanded him to halt. The man threw up his hands. Holding the stem of the pipe against the back of the prowler's neck, Walsh marched him to the house, locked him in the kitchen and telephoned to Marshal Buermann.

Additional Contributions of \$6,75 Raises Total for Christ-Entertainment to \$6,586.73.

A few belated contributions to the Post-Dispatch Christmas Festival Fund are still being received. Contributions totaling \$6.75 were received Tuesday.
A contribution of \$51, received a few days ago from Dr. H. H. Meyer was by mistake credited to the Christmas Festival Fund. Dr. Meyer intended it for the Free Milk and Ice Fund. It has now been transferred to the latter fund. The subtraction of this amount from the Christmas Festival Fund leaves \$6579.98 as the corrected total previously ac knowledged. The contributions received Tuesday bring the total to \$6586.73.

It ought to make our task very much less difficult and embarrassing than it would have been had we been obliged to continue to act amidst the atmoswhich has so long made it impossi-ble to approach such questions with dispassionate fairness. Constructive legislation, when successful, is always the embodiment of convincing experience and of the mature public inion which finally springs out of that experience. Legislation is a business of interpretation, not of origination, and it is now plain what the opinion is to which we must give effect in this matter. It is not recent or hasty opinion. It springs out of the experience of a whole generation It has clarified itself by long contest and those who for a long time battled with it and sought to change it are now frankly and honorably yielding to it and seeking to conform their

The average busiagainst them. The average busi-ness man is convinced that the

ness man is convinced that the ways of liberty are also the ways of peace and the ways of success as well, and at last the masters of business on the great scale have begun to yield their preference and purpose, perhaps their judgment also, in honorable surrender.

What we are purposing to do, therefore, is, happily not to hamper or interfere with business as enlightened business men prefer to do it, or in any sense to put it under the ban. The antagonism between business and Government is over. We are now about to give expression to the best business judgment of America, to what we know to be the business conscience and to be the business conscience and honor of the land. The Government honor of the land. The Government and business men are ready to meet each other half way in a common effort to square business methods with both public opinion and the law. The best informed men of the business world condemn the methods and processes and consequences of monopoly as we condemn them, and the instinctive judgment of the vast majority of business men every-

it, in thoughtful moderation, without revolution of any untoward kind.

We are all agreed that "private monopoly is indefensible and intoler-able," and our program is founded upon that conviction. It will be a nprehensive, but not a radical or unacceptable, program and these are its items, the changes which opinion

first place, for laws which will effectually prohibit and prevent such interlockings of the PERSONNEL of he directorates of great corporations -banks and railroads, industrial, commercial and public service bodies -as in effect result in making those the borrow and those who lend pracically one and the same, those who well and those who buy, but the same persons trading with one another under different names and in different combinations, and those who affect to compete, in fact partners and masters of some whole field of business. Sufficient time should be allowed, of course, in which to

vithout inconvenience or confusion.
Such a prohibition will work much more than a mere negative good by correcting the serious evils which have arisen because, for example, the men who have been the directing spirits of the great investment banks have usured the place which be-longs to independent industrial management working in its own behoof. It will bring new men, new ener-gies, a new spirit of initiative, new blood, into the management of our great business enterprises. It will open the field of industrial department and origination to scores of men who have been obliged to serve when their abilities entitled them to cirect. It will immensely hearten the young men coming on and will greatly enrich the business activ-ities of the whole country.

In the second place, business men as well as those who direct public affairs now recognize and do recog-nize with painful clearness, the great one to many, if not all, of the great railroad systems of the country by the way in which they have been

# The Post-Dispatch and President Wilson on Federal Control of Railroad Finance

Following is an excerpt from President Wilson's message in which he advocates Federal control of railroad finance and excerpts from Post-Dispatch editorials in advocacy of the same reform:

Business men as well as those who direct public affairs now recognize and do recognize with painful clean public affairs now recognized with public affairs now recognized with painful clean public affairs now recognized with a supplication public affairs now recognized with a s nize and do recognize with painful clearness, the great harm and injustice which has been done to many, if not all, of the great railroad systems of the country by the way in which they have been financed and their own distinctive interests subordinated to the interests of the men who financed them and of other enterprises which those men wished to promote. The country is ready, therefore, to accept, and ac cept with relief as well as approval a law which will confer on the Interstate Commerce Commission the power to superintend and regulate the financial operations by which the railroads are henceforth to be supplied with the money they need for their proper development to meet the rapid ly-growing requests of the country for increased and improved facilities of transportation. Dispatch, Dec. 14, 1913.

Unquestionably the control of the finances of interstate railroads should rest with the Federal Government. It is a logical corollary of rate regulation. Rates are inevitably affected by capitalization. Interest charges on bonds must be met and dividends on stock must be paid by going railroads. The alternatives of prosperous financial conditions are bakruptcles and receiverships. There is no middle ground.

Congress should empower the Interstate Commerce Commission to regulate railroad finances. Plans for new railroads and extensions state Commission for approval. Proposals of bond and stock issues, with full information of the conditions under which they are to be issued and the purposes for which the money is to be applied should be submitted to the commission for approval. No bonds or stocks of interstate railroads should be issued without the commission's approval.—Post-Dispatch, June 5, 1913.

The scandal (Frisco) should be probed to the bottom. The information so far disclosed fully justifies the Post-Dispatch's demand for the regulation of railway financing by the Government. - Post-Dispatch,

It is the proof of disastrous financial juggling and kiting that moves us to appeal to Congress to adopt legislation for the rigid regulation of railroad financing.-Post-Dispatch, Nov. 30, 1918.

The lesson of the Frisco is the need for Government regulation, through the Interstate Commerce Commission, of interstate railroad finance.

There ought to be an administrative com shaping such corrective processes Inasmuch as our object and the spirit of our action in these matters is to meet business halfway in ses of self-correction and disturb its legitimate course as little as possible, we ought to see to it, and the judgment of practical and sagacious men of affairs everywhere would applaud us if we did see to it, that penalties and punishment should fall, not upon business itself to its confusion and interruption but upon the individuals who use th

Other questions remain which will need very thoughtful and practical Enterprises, in these modern days of great individual fortunes, are oftentimes interlocked, not by being under the control of the same directors, but by the fact that the greater part of their corporate stock is owned by a single person or group of persons who are way intimately related in interest. We are agreed, I take it, that holding companies should be prohibited, but what of the controlling private ownership of individuals or actually co-operative groups of individuals? Shall the private owners of capital stock be suffered to be themselves in effect holding companies? We do not wish, I suppose, to forbid the purchase of stocks by any person who pleases to buy them in such quantities as he can afford, or in any way arbitrarily to limit the sale of stocks to bona fide pur-chasers. Shall we require the owners of stock, when their voting power in several companies which ought to be independent of one another would constitute "ual control, to make election in wich of them they will

# FOR FEBRUARY Some Magazine

For October, 1900, we got out a particularly good number of The Munsey. I said so on the cover—a plain, matter-of-fact, signed statement that it was the best number we had ever issued.

Such an innovation, such a shocking disregard of number makes the other one look small and indif-

conventionality, was intolerable in the eyes of the ferent. That number had 160 pages; this one has newspaper paragraphers. I bore up tolerably well 234 pages. That number cost to go to press \$5000; ider the criticism, however, and the magazine this one cost \$20,000. That number contained short itself struggled along with its increased sale of instalments of two serial stories; this one contains, over a hundred thousand copies on that number in the place of these serials, a full-length \$1.50 book novel, published complete in one issue. FRANK A. MUNSEY

Or by the Year Direct from the \$1.50 : NEW YORK

Show Why Missouri Metropolis Should Be Regional Center of the Southwest.

On the eve of the Federal Reserve Or-Committee's arrival in St. Louis, bankers here are preparing to rate their forces on the establishment of a district which will have St. Louis as its reserve center and coincide with the great Southwestern and Southern territory which in a commercial sense is naturally tributary to this city. Secretary of the Treasury McAdoo and Secretary of Agriculture Houston, the Organization Committee, will arrive in St. Louis Wednesday. They will conluct hearings Wednesday and Thursday, probably at the Planters Hotel.

Special Committee to Appear.
At these hearings a special committee of St. Louis bankers and business men will present the claims of St. Louis as Federal reserve center.

Most of the members of the committee take it for granted that r Federal reserve bank will be established here and their arguments before the organization committee they will devote their efforts largely to suggestions as to the territory of which the St. Louis Fed eral Reserve Bank should be the center The district favored by the St. Louis anking and commercial organizations ncludes Missouri, Kansas, Nebraska, Texas, Arkansas, Oklahoma, Kentucky, Tennessee, Louisiana, Mississippi, Tennessee, Louisiana, Mississippi, Southern Illinois and Southern Indiana.

Members of the Committee.
The committee which will present St Louis' claims to McAdoo and Houston

house: F. O. Watts, president of the Third National Bank; Edwards Machanics-American Bank: Thomas B. West, president of the St. Louis Union ing to obtain the bank for St. Louis, Trust Co.; Breckenridge Jones, president of the Mississippi Valley Trust Co. J. C. Van Riper, president of the Amercan Trust Co.; E. C. Simmons, Jackson Johnson, Joseph R. Barroll, Robert S Brookings, D. R. Francis, Murray Carleton, E. F. Goltra, B. F. Bush, D.

. Nugent and James M. Buick. Some of the members of the St. Louis mittee when seen by Post-Dispatch reporters gave their reasons why St uld have a Federal reserv bank with the natural St. Louis trade territory as its tributary. Other mem-bers declined to discuss the question for publication in advance of their ap pearance before the Organization Com

Others Express Their Views. Other business and financial men out-side of those on the committee were seen and stated their views. The state-ments follow:

F. O. Watts, president Third National Bank: For many years the reerves of the St. Louis territory have seen held largely here. The new law was designed as an additional facility to the present handling of commercial usiness of such a district. As such an additional facility it will naturally be applied by the institutions where the eserves have been held.

It would be unnatural and disturbing or these reserves to be shifted to an ther point. The banking resources and eserves of St. Louis are ample and care for an extended territory. This is par icularly true of the district proposed for St. Louis for the reason that it ntains such diversification of interests It would be a well-balanced and self-sufnary circumstances.

Daniel C. Nugent, president B. Nugent & Bro. Dry Goods Co.: From the retailer's standpoint there are many self-evident reasons why a regional bank should be established in St. Louis, but probably the foremost is that St Louis unquestionably is today the busi-ness and banking center of the vast territory including Missouri, Kansas, Ne-braska, Texas, Arkansas, Oklahoma Kentucky, Tennessee, Louisiana, Mis sissippi, Southern Illinois and Southern

This territory, I believe, can only be served to the fullest benefit from St. Louis as a regional or central reserve tem. No city in the United States can compare with St. Louis in its increase in capital invested, volume of sales and space occupied in the last 10 years. This rease shows a growth at a greater rate than the population or wealth of the city. Hence it is reasonable to con-clude that the retailers here have drawn vast business from the surrounding territory aforementioned.

. I know it to be a fact that those who ormerly went on to Chicago or New York to negotiate big business now stop in St. Louis as the business hub around which their interests revolve and they are getting what they want.

With a regional bank here, the demands of such business and vast growth would be satisfied in a way that no other center in the territory named could offer. St. Louis is the logical regional clearing house of that territory This reason, as well as innumerable others, can be put down in black and white to prove the claim. When I repre-sent the retailers before the Government Committee Wednesday, I shall have compiled in figures the data to show why this immense business demands regional bank in St. Louis.

Jackson Johnson, president Inter-national Shoe Co.: The selection of St. Louis for a Federal reserve bank would have the same effect on the city financially, in my opinion, as a capital of a state has politically. The eyes of the financial world would be centered on us. I believe the city, if one of the banks should be assigned to St. Louis, should serve the Southwest, or a territory almost exclusively west of the Mis-

sissippi River.

Relin Wells, capitalist and former
Mayor of St. Louis: St. Louis' reputation throughout the country for financial
solidity and her unexcelled geographical
location in the heart of the Mississippi alley, I think, are good reasons why

our city should be named by the Region al Bank Commission as one of the regional reserve cities.

If I were appearing before the commission I should also use the argumen that St. Louis has always been a reserve city. Since the enactment of the ational banking act, St. Louis has always been one of three reserve cities of

The Government saw fit to make S Louis a reserve city years ago, and to has remained so up to the present time. The same reasons that made it a reserv city, its wealth, solidity and geographi-cal location, still prevail and its growth in all branches of trade and commerce accentuate the newspay of its reselec-tion as a site for out of the new regional eserve banks.

Daniel Catlin, capitalist: I have not given the subject of why St. Louis should get one of the regional reserve banks much thought. I have reis composed of:

Festus J. Wade, president of the clearnot a banker. But I believe in getting everything for St. Louis that she deserves. I believe this city ought to Whitaker, president of the Boatmen's have a reserve bank, and I don't think Bank; Walker Hill, president of the there is any doubt about her getting. there is any doubt about her getting it. If I were on the committee seek would employ facts and figures.

Facts and figures, I believe, is all the commission wants, and upon them, I believe, the chances of St. Louis rests. Give them the trade figures of St. Louis with the great decide that a bank is a necessity for St. Louis in the handling of this vast volume of business.

As to benefits that will accrue to St. Louis as a result of locating a re gional bank here, I am not prepared to say. I don't think anyone is. The plan of regional banks merely an experiment. For myself, I

Illinois Confesses After Young Woman's Letters, Offering Pay for Killing Are Read.

GALESBURG, Ill., Jan. 20.—Relatives of 15-year-old Julia Flake, who is held under surveillance, following her story which resulted in the arrest and confession of Robert Higgins that he killed his wife, who was her mother, Jan. v. so that he might be free to wed his today. stepdaughter, today charged Higgins with a grave offense against the child. the day when the public must of neces- mer. sity know of her plight.

Higgins, likewise, was desperate, for his wife, too, soon expected to become a mother. In the confessions attributed to them, Julia and Higgins admitted the relations existing since last May. The story of the crime was told by

Miss Flake when she was questioned about two letters which she had written to relatives promising monetary reward for the killing of her mother. At the time of the killing, Higgins raved and struggled with neighbors in a seeming attempt to get possession of the gun, to end his own life. His stepdaughter who was in an adjoining room at the time of the killing, also seemd discon-solate, and both she and Higgins received the deepest sympathy.

Then C. W. Ernst, a maternal uncle of

Julia Flake, took two letters written by the girl to State's Attorney Wilson One was addressed to himself and the other to his daughter, and at the time they were received, it was thought that

they were penned in anger.
Suggests Killing in Letter. The letter she wrote to her uncle was

as follows. Dear Honev: I wonder if your father would entertain any notion of killing mother. If he does I wish that he would hurry up and do it, as I am getting awful tired. I wish he would try to come over here to Windhams a couple of days next week. Of course he would have to do it when father and I are away. He could go to the house when fa-ther is shucking corn and I am in school. Tell him to come and see me The letter to Miss Marie Ernst wa

n substance:

I wish you would try to come over here. I am awful mad. If you will do what I want you to I will pay you well, but not until I am 18. You can come to see me at the Marie answer my other letter?

Ernst told the State's attorney he did not inform Mrs. Higgins of the letters because he was not on speaking terms with her, but that he did go to the schoolhouse and tell Julia not to write any more such letters. He said he asked her if she was crazy and told her to go home and behave herself. The pay of which she spoke, he said, was the share in the \$7000 legacy she was to receive when she was 18 years old.

Astounded by Girl's Story. State's Attorney Wilson thought the etters were written in a fit of anger. but he investigated. Saturday he called in State's Attorney A. J. Boutelle, of Knox County and Sunday they went to see Julia, who was at the home of another uncle, A. J. Ernst at Herman, They were astounded by her story. She told how they had schemed for hours vising a plan which would make Mrs Higgins' death appear accidental.

Higgins, who is several years the junior of the woman he killed, was found at New Henderson, questioned for everal hours and he made many contradictions. En route to the county ail at Aledo in an automobile, he broke down and said he would "tell every-

planned to get rid of her.

Examination Is Waived. Higgins' condition was such when the county seat was reached that his attornevs waived preliminary examination Higgins slept soundly last night and awoke with a good appetite. He is in jail at Aledo and his stepdaughter is at the home of her uncle, Gust Flake,

The board determined Monday night that the salary of the Mayor, under the new charter, shall be \$19,000 a year. Seven of the eight members present voted for \$10,000 a year, only Chairman McDonald voting against it as being too much Those voting for it were: Dalton, Rut ledge, Gardner, Aloe, Spencer, Rosenfeld and Udell. The present salary of the Mayor is \$5000 a year. The board determined at an earlier meeting that the salary of the members of the Board of Aldermen, 28 in number, shall be \$1000 a

An invitation will be extended to for mer Mayors to enlighten the board or whether there is any necessity for the Mayor having a contingent fund for which he does not have to make an ac-counting. A contingent fund of \$12,500 a year is now provided for the use of the Mayor. He may use this in any way he sees fit, for any public purpose, private harity or any investigation of city affairs, without having to account for it.

McDonald Opposes Fund. Chairman McDonald said he did not think the Mayor should have the use of public money without having to make some kind of report as to how he spent Spencer said he thought the Mayor should make some kind of accounting, but suggested that it might be well to equire this at the end of his term, so that he would not be hampered or embarrassed in his work. He said the Mayor might wish to use the fund to investigate some public official, and it he had to file a report stating that he had spent a certain sum to investigate some particular official, he might tip off his hand so that his object would no

The board decided to take up this question at a future meeting, after having heard former Mayors Wells, Wal-bridge and Kreismann on the subject.

# "Gains 22 Pounds in 23 Days"

"I was all run down to the very bottom, writes F. Gagnon. "I had to quit work I was so weak. Now, thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days."

"Sargol has put just 10 pounds on me in 14 days," states W. D. Roberts. "It has made me sleep well, enjoy what I ate and enabled me to work with interest

"I weighed 132 pounds when I commenced taking Sargol. After taking it 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh building I have ever seen," declares D. Martin, and J. Meier adds: "For the past twenty years I have taken medicine every day for indigestion and got thinner every year. I took Sargol for forty days and feel better than I have felt in twenty years. My weight has increased from 150 to 170 pounds."

How Thin People Can Put on Flesh

When hundreds of men and women-and there are hundreds, with more coming every day—living in every nook and corner of this broad land voluntarily testify to weight increases ranging all the way from 10 to 35 pounds given them by Sargol, you must admit, Mr. and Mrs. and Miss Thin Reader, that there must be something in this Sargol method of flesh building after all.

Hadn't you better look into it, just as thousands of others have done? Many thin folks say: "I'd give most anything to put on a little extra weight," but when some one suggests a way they exclaim, "Not a chance. Nothing will make me plump. I'm built to stay thin." Until you have tried Sargol, you do not and can not know that this is true.

Sargol has put pounds of healthy "stay-there" flesh on hundreds who dcubted, and in spite of their doubts. You don't have to believe in Sargol to grow plump from its use. You just take it and watch weight pile up, hollows vanish and your figure round out to pleasing normal proportions. You weigh yourself when you begin and again when you finish and you let the scales tell

Sargol is absolutely harmless. It is a tiny concentrated tablet. You take one with every meal. It mixes with the food you eat for the purpose of separating all of its Thin People Can flesh-producing ingredients. It prepares these fat-making elements in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their assimilative machinery performs its functions without aid. But thin folks' assimilative organs do not. This fatty portion of their food now goes to waste through their bodies like unburned coal through an open grate. A few days' test of Sargol in your case will surely prove whether or not this is true of you. Isn't it worth trying?

Isn't it worth trying?

If you want a beautiful and well-rounded figure of symmetrical proportions, if you want to gain some solid pounds of healthy stay-there flesh, if you want to increase your weight to normal, weigh what you should weigh, go straight to your druggist today and get a trial package of Sargol and use it as directed. Sargol will either increase your weight or it won't, and the only way to know is to try it. A single package of Sargol easily enables you to make this test. Sixty days' use of Sargol, according to directions, is absolutely guaranteed to increase your weight to a satisfactory degree or your druggist will refund your money you have paid him for it. ### CAMNITZ AND FORD SIGN WITH FEDERALS

CHICAGO, Jan. 20. HE Federal League signed two big league pitchers today-Russell Ford of the New York Americans and Howard Camnitz of the Philadelphia Nationals. The news of their signing came from managers of the Federal League teams.

Negotiations with Al Demaree, the Giants' pitcher, ended when Demaree informed Joe Tinker he had already signed a Giants' contract. The Federals made an offer to Outfielder Wolter of the New

York Americans. Ford probably will be added to the Chicago roster and Camnitz either to Pittsburg or Indianapolis.

It is certainly remarkable how quickly the action of S. S. S. the famous blood purifier, shows itself in the skin.

There is one ingredient in S. S. Which peculiarly stimulates cellular or glandular activity to select from the blood, or from the fine network of blood vessels in the skin, those elements which it requires for regeneration.

Thus pimples, acne, ecsema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antidotal effect of S. S.

This is why skin troubles vanish so readily and why they do not return. Under the influence of S. S. this fine network of blood vessels in the skin is constantly selecting from the blood the nutrition required for healthy tissue, and the cause of disease is just as constantly being removed, scattered and rendered harmless.

It is a great mistale to rely upon selecting.

Men With Smuggled Pistols Slay Guard, Assistant Warden, Bertillon Expert and Former Federal Judge Thomas, an Illinoisan, Who Was Visiting Penitentiary at McAlester.

McALESTER, Ok., Jan. 20.-Smuggling of pistols into the prison was declared today to be responsible for the attempt of three convicts to escape from the State penitentiary here late yesterday, which resulted in the killing of a former Federal Judge, three prison employes and the three convicts, and the wounding of three others. Warden W. R. Dick today continued his investigation to determine just how the pistols came into the possession of Charles Koontz, China Reed and Tom Lane, the convicts who gave up their lives in trying to escape. Word came from Oklahoma City that a special commission might be appointed by the Governor to in-

# WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve-building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well-fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and diet all starchy, sweet or latty 1000, and are trying to keep up a miserable ex-istence on gluten products, I would sugdiet all starchy, sweet or fatty food, and gost that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach, but by neutral and thus semoving the source of the food contract and thus semoving the source of the soid irritation whim the source of the interest of the food on the soid irritation whim the source of the seaso irritation whim the source of the interest of the soid irritation whim the source of the seaso of the seaso of dosing an inflamed and irritated st—sch with drugs instead of getting fit of the acid—the cause of all health of the seaso of all health of the countries of the bisurated magnesia as directed above, and see if I'm not right.—LDV.

### PUT THE BRIDGE TO WORK.

Beginning a campaign for the completion of the rce bridge, the Post-Dispatch believes that an overwhelming majority of the St. Louis people approve the following propositions:

1. The free bridge should be comp nd put to work as soon as possible—as soo

2. It should be completed in the right way the cheapest, most practicable and mos seful way.

Not another year should pass without beginning work on the eastern approaches, the only unfilled gaps in the bridge structure. In order that money may be available for work before the end of this year, prompt action on the part of the city authorities is imperative. If the money is to be obtained by a bond issue the bond election should be held in April.

The first question to be decided is the way to complete the bridge. The decision primarily rests with the Municipal Assembly, upon whose action THE COSTLY STRUCTURE TO WORK FOR THE CITY. the form of legislation providing for the completion of the bridge depends.

As the initial step in the bridge completion campaign the Post-Dispatch submits full information of the present status of legislation and the views of members of the House of Delegates, where the Council bill submitting a bond issue is now

The so-called Reber approach was selected by the Board of Public Improvements and adopted by the Municipal Assembly during the Kreismann administration. It was approved as the cheapest and best approach by a commission of competent engineers. Land has been obtained for the approach at a cost of \$140,000. The city has that much money invested in the selected approach.

There is grave doubt whether the city has not. n providing for the Reber approach, exhausted its powers to condemn and acquire land for the main eastern approach. It is the opinion of City Counselor Baird that the city is powerless to condemn land for another approach and that the effort to do so might be resisted successfully. In a change of location there is, at least, danger of delay and failure through litigation.

The Council has passed the Hines bill providing for submission to the voters of a bond issue to the amount of \$2,750,000, the sum required to build oward annexation of subdivisions to the city of the Reber approach. This bill is in the hands of the House Committee on Railroads.

The prompt adoption of the Hines bill by the would be the shortest cut to action. The bond proposal could be submitted to the people in April, the bonds could be marketed by July and

Nothing but the refusal of the House of Delegates to pass the Hines bill before Feb. 1 will prevent the beginning of work this year if the peonle vote the bonds.

The only objection urged against the Reber anproach, bonds for which are provided in the Hines bill, was that it might be bottled by the Terminal Railroad monopoly. This objection has been removed by the decision of the United States Supreme Court, which compels the Terminal combine to reorganize on a basis which admits all railroads to the use of its tracks on equal terms and without restriction. All monopoly condesirable because it offers access to the bridge to all railroads entering or seeking entrance into St. Louis.

The only alternative to the Reber approach provided for in the Hines bill is the Alton & Mississippi project, which is favored by Mayor Kiel and President Kinsey of the Board of Public Improvements, and is supported by a group of

Two plans are offered for this project. One is to have the approach built by contractors, leased by the city and paid for in annual installments amounting in the aggregate, with interest, to \$7,000,000. The other is to submit a bond issue for the building of the approach by the city at a tains to New York through the new aqueduct. It lice for their annual report. cost of \$4 900 000

Under the cheapest plan the A. & M. approach would cost the city \$1,450,000 more than the Reber approach. The approach is much longer, far more costly and would be less convenient and useful to railroads than the Reber approach. It involves legal complications. It is a manifest scheme of and promoters and speculators.

The chief argument in its favor, that the Reber approach is opposed by many voters, is weak, because if the Reber approach, requiring an expendi ture of \$2,750,000, is opposed, what will be the attitude of voters towards a project requiring an and cost, and perhaps also in permanence of con expenditure of \$4,200,000, with legal and specu-

lative complications? Why should the contract plan for the A. & M. be adopted at a far greater cost, with profits for contractors and speculators, than that of a better approach built by the city, without rakeoffs to any-

The Post-Dispatch's poll of 25 members of the House of Delegates showed that 12 favored or within reach great benefits in public water supply were willing to vote for the Hines bill. Nine land irrigation and means of transit and solve favored the Alton & Mississippi project. One was alike the difficult problems of sterile wastes and ommittal and three feared the bonds for the congested population centers. Reber approach would be defeated. But condi-The menace of the Terminal monopoly has been removed. The Republican organization which, under the leadership of Mayor Kiel, then chair- St. Louis' regional bank.

man of the Republican City Committee, opposed the bond issue, would now favor it. The Demo cratic organization, as a matter of party policy, opposed the issue. Public sentiment has changed.

Before the bond proposal is submitted to the people, in order to strengthen it, we urge the Municipal Assembly to pass the Council bill providing for the reduction of the term of the Southern traction loop franchise to 25 years, with a city-purchase option at the end of 10 years.

The Post-Dispatch wants the bridge con pleted. We want the work begun this year. We believe the people of St. Louis want ac on the bridge. We believe the wisest activ is the adoption of the pending bond issue bill and the Southern traction amendment bill. We ask prompt action on these bills. We

ask the co-operation of the people of St. Louis in obtaining action. The full force of public opinion directed on the Municipal Assembl will compel action. LET US REMOVE THE UNFINISHED BRIDGE REPROACH FROM ST. LOUIS. LET US PUT

### READY FOR THE SECRETARIES.

Secretaries McAdoo and Houston, touring the country to prepare a report recommending sites for the eight to twelve regional reserve banks which are to be established under the terms of the new banking and currency act, will visit St. Louis Wednesday and Thursday to hear, see and weigh this city's claim for one of these institu-

St. Louis bankers and business men are prepar ing an array of facts and figures supporting that claim. They go further. They are prepared to urge that St. Louis shall be the seat of one of the four great central regional reserve banks which it is believed will be created, probably in New York, Chicago, St. Louis and San Francisco.

The channels of banking are the channels of trade. For many years St. Louis has been one of the central reserve cities under the old banking act and far more than any other city has been the trading and financial center of the South and Southwest, in addition to caring for its own very rich immediately tributary trade territory.

In marking off the reserve regions, the national board will very likely have to subordinate the House of Delegates and its approval by the Mayor claims of ambitious young cities to the working necessities of the country's commerce. This con sideration alone should insure the inclusion, with in the St. Louis district, of the whole of the vast area now principally served in trade and finance work on the bridge could be in full swing by by St. Louis. This would be no less advantageous to the commercial interests of the region indicated than to St. Louis. Indeed, the establishment of great reserve bank here, for that region, would give it better service than could be afforded if the region were divided into two or more parts, each provided with a small reserve bank.

Within the St. Louis trade territory industries and crops are widely diversified. Hence not all of them would be in the market as borrowers at the same time. With the resources of a great bank at this point, each interest within the regio could be adequately served in its turn and the banking resources of the community would neve be taxed to the limit, as those of a smaller district, devoted chiefly to producing one crop, would

East St. Louis Attorney Discov ers Ordinance on Which He Based Action Does Not Exist.

Based Action Does Not Exist.

City Attorney Pekete of East St. Louis was preparing to bring suits against the Vandalia and Baltimore & Omio railroads for \$6000 each for failure to obey an ordinance equiring the erection and maintenance of eafety gates at Exchange avenue, when he discovered there was no ordinance.

An examination of the records showed that an ordinance for the gates was introduced in the City Council Sept. 21, 1912, but was filed. Monday afternoon the City Council passed an ordinance making it imperative that the gates should be built within 30 days.

The point where the gates will be placed is known as "Death Crest." The railroad tracks run parallel at this point and are several feet above the road surface, and because of the number of fatalities from accidents, automobilists and teamsters have named it "Death Crest."

The ordinance provides for a fine of \$150 for each day the gate has not been erected after the time limit.

Judge Pleper is said to be the riches.

### EFFORTS TO FIND OIL ON EAST SIDE ABANDONED

After Expenditure of More Than \$100,000 Drillers Strike Sulphur Water.

Sulphur Water.

After the expenditure of more than \$100,000, efforts to find oil on the east side of the Mississippi River have been abandoned for the fourth time. The Ohio Oil Co., which has been drilling at Matthe's station, between Collinsville, Edwardsville and Troy, struck a strong flow of sulphur water at a depth of 2300 feet and was compelled to plug the hole. The first "oil well" was on the Gaertner farm, three miles north of Edwardsville. Natural gas was encountered, and burned for days. A few years later a farmer, Ferdinand Keller, drilling a well for water south of Edwardsville, struck a pool of crude oil. Several hundred barrels were pumped before the supply was exhausted.

Another well was drilled on the Kas-

### LID FOR NEGRO MOVIES AND DANCE HALLS URGED

Head of East St. Louis Alliance Asks Council to Close Places Sunday Nights.

Sunday Nights.

The Rev. E. H. Borden, president of the Colored Evangelical Alliance in East St. Louis, in a speech to the City Council Monday urged the closing on Sunday nights of dance halls and nick-elodeons that are attended by negroes. Borden announced that there are 14,000 negroes in the city, and on March 1 the 20 negro churches in the city will begin a campaign to obtain new members. Borden also said that 10,000 negroes were expected to attend church on that day. Mayor Chamberlain said he would appoint a committee of five Aldermen to confer with the alliance with the view of determining what steps should be taken to close the places suggested.

### TEAMSTERS OF ALTON TO **BUILD ROAD TO RIVER**

Drivers Organize to Fight Alleged Monopolization of Highway by Sand Company. way by Sand Company.

Alton teamsters have organized to fight the alleged monopolization of the Mississippi River Bank at Alton. They plan to build a half-mile road from the railroad embankment at the foot of Cherry street to the river. The road will be used for hauling sand.

Warants have been issued against several teamsters for trespass for traveling over the road alleged to be the property of the Mississippi Sand Co.

To aid the teamsters in their fight, J. P. Callaghan, the chairman of the Board of Public Improvements, ordered the railroads to plank up their crossing, that the teamsters might have easier access to the new road.

Judge Pieper's wife, to whom he made a settlement of \$50,000 when they separated many years ago, died in 1901. She left the \$50,000 to her daughter. Velia, who died six years ago, and who, in turn, bestowed the estate upon Henry A. Pieper's children, Catherine, Dorothy and Henry, to be held in trust by Henry A. Pieper and his wife.

In her application, Mra. Pieper sets forth that her husband owns and is responsible for considerable property and that he is not accountable in his present mental state.

Waldo P. Hines, former Sheriff of St. Charles County, told a Post-Dispatch correspondent a strange story of how he lost \$125 in bills a week ago and recovered the money from Pieper, who, he declared, hid it in one of his socks. Hines, who conducted a saloon in St. Charles, said Pieper frequently slept in his place. Hines said that he closed the saloon a week ago and put \$125 in bills and a similar amount of cash in a sack in his overcoat and then went to a pool-room, where Pieper was loitering. When Hines got homs, he said, he missed the bills. Investigation pointed to Pieper, he said, who was searched.

The money, Hines said, was found in one of Pieper's socks. Hines could give no explanation of how it happened.

### EAST SIDE SUFFRAGISTS PLAN SPRING CAMPAIGN

Speaker Tells Women to Create Sentiment Among Men by Good Meals.

Good Meals.

That the women of East St. Louis will immediately organize to secure a full registration of women voters of the city for the spring election was the opinion expressed Monday by officers of the Women's Civic Federation, following an address by Mrs. Carrie Alexander Bahrenburg, a director of the Illinois Equal Suffrage League. It is proposed by the federation to appoint ward captains to make a systematic poll of the qualified women voters and urgs them to register March 17.

Mrs. Bahrenburg addressed more than 200 members of the federation at Y. W. C. A. Hall and urged a campaign by the women to create sentiment for suffrage. She said the best way to win over the men is to cook extra good meals for them.

The officers of the Women's Civic Federation, which is composed of the various women's clubs of the city, are: Mrs. L. O. Whitnel, president; Mrs. M. B. Mann, Mrs. M. M. Stephens and Mrs. J. K. Ewing, vice-presidents; Mrs. W. G. Padfield, corresponding secretary; Mrs. R. A. Nims, treasurer, and Mrs. R. J. Boylon, recording secretary.

The annual report of Fire Chief Tobin of East St. Louis, submitted to the City Council Monday afternoon, shows that three firemen were killed and three seriously injured during the year. Tobin suggested that firemen's wages be raised to \$70 for the first six months and \$30 after that period.

The total fire loss was \$537,543.
The department responded to \$42 alarms.

Tobin recommended the erection of a new fire house at Twenty-third street and Bond avenue, and the purchase of an automobile for the Chief and his Lieutenant, and a combination motor engine and hose wagon.

Notice to Holders of St. Louis Brewing Association First Mortgage 6% Bonds, Due July 1, 1914

Arrangements have been completed whereby the Company will issue \$4,500,000 of First Mortgage 6% sinking fund gold bonds, dated July 1, 1914, due July 1, 1939, the proceeds of which will be used, together with additional cash, to pay off the maturing issue, of which there are outstanding \$4,782,600.

In connection with this issue, which will, upon July 1, 1914, become a first mortgage lien upon all the property of the St. Louis Brewing Association, the following facts should be of interest:

FIRST: The new issue will be \$750,000 less than the original

SECOND: The Association represents that the increased value of the property since the original issue of bonds amounts to over \$3,600,000.

THIRD: The new bonds will have as additional security \$1,000,000 in St. Louis real estate not heretofore directly under the mortgage.

FOURTH: A sinking fund of \$50,000 per year will be required, whereby approximately \$1,200,000 of the bonds will be retired before maturity. FIFTH: The Company's business history shows uninterrupted

success extending over a period of 25 years, and the management is in the hands of capable and efficient

SIXTH: A statement regarding the Company's affairs during the past ten years has been prepared by the President, Mr. Henry Nicolaus, which shows that the Company, after charging off liberal amounts for depreciation, renewals and repairs, has had average earnings in excess of \$815,000 per annum for the past ten years.

SEVENTH: The assets of the Association are conservatively appraised at over Fourteen Million Dollars-more than three times the total bond issue.

This entire issue of bonds has been underwritten by a strong syndicate, over one-half the issue being taken in London.

In order that the present holders of the old bonds may be given the first opportunity of securing the new bonds, the following plan of exchange has been adopted:

Exchanges may be made on the basis of 100 and interest for the old bonds and 98 for er words, any holder of the old bonds change will, upon presentation of his bonds, be given an interim certificate issued by the trustee calling for the new bonds when issued, and will receive \$20.00 per bond in cash. The July 1, 1914, coupon on the old bond will be retained by the owner, so that he will lose no interest in the transaction.

This offering will only remain good for a limited period, and inasmuch as the amoun of old bonds now held in this country greatly exceeds the amount of new bonds offered, it is suggested that those desiring to make the exchange present their bonds as promptly as

In the event there should be any bonds remaining after the present holders have been given sufficient opportunity to make exchanges, public offering will be made at not less than 981 and interest.

A circular giving a complete description of the new issue and containing a copy of the President's statement will be furnished upon request.

Application will be made to list the new issue on the St. Louis Stock Exchange Mississippi Valley Trust Co. Altheimer & Rawlings Inv. Co.

## ONE OR THE OTHER.

ARRY B. HAWES tells this story on an old negro servant of the Hawes family, who at one time was a minister.

In a church for negroes in a small town in West Virginia one of the congregation complained to the minister that "Mose," the man who passed the contribution box, was robbing it. The following Sunday, when "Mose" took up the collection, the minister watched him closely, but saw nothing suspicious in his actions. The man who had warned the minister, however, slipped up to the pulpit and whispered that he had again seen "Mose" take a coin from the box. Mose then was near the door and apparently feared detection.

The minister arose and exclaimed:
"If Mose has taken any of that money he'll be damned." Just then Mose disappeared through the door, taking the box and money with him and the minister shouted—"but if he hasn't taken it, I'll be damned!"
